

The **NEW** Proflush Combo HI-98129

Combined Meter pH / Conductivity / TDS / °C

The **Combo** HI-98129 waterproof testers are designed for high accuracy pH / Conductivity / TDS / temperature measurements.

- No more switching between meters, the **Combo** is capable of reading pH and EC/ TDS. All readings are automatically temperature compensated for (ATC).
- The **Combo** has a selectable EC / TDS conversion factor and temperature compensation coefficient.
- The **Combo** is waterproof and will float. It has a large easy to read dual level LCD with an automatic power cut off.
- The **Combo** has a replaceable pH electrode cartridge with a cloth removable junction as well as an EC / TDS graphite electrode which resists contamination by salts and other substances.
- Fast, efficient, accurate and portable the **Combo** meets the requirements of multi routine measurements.
